Who can join as a National Corporate Partner or Supporting Member?

We have many organizational allies, stakeholders, collaborators, partners and individuals that are interested in supporting and sustaining the important work we do in empowering communities to respond to child abuse. The National Corporate Partner category allows these groups and individuals to remain closely connected to NCA, while also offering some valuable membership benefits.

Why join as a National Corporate Partner or Supporting Member?

NCA’s National Corporate Partner Program provides businesses, corporations, nonprofit organizations, foundations, academic institutions, researchers and other interested individuals with a direct connection to NCA’s expansive, national membership of more than 49 state chapters, 777 child advocacy centers and the vast community of practice and network of professionals with knowledge and expertise, many of whom are also key decision-makers within their organization who have budgeting and purchasing authority.
NCA National Corporate Partners
(Corporations, Businesses, Academic Institutions, Not-for-Profits)

Benefits of Membership

Recognition
- Organizational logos and web links featured on the Friends and Partners page of the NCA website
