

Statistical Data for CAC Accreditation Applications

Statistical data from all CPS and law enforcement jurisdictions served indicating the number of child maltreatment cases reported to each agency (meeting the CAC's case acceptance criteria) for the last calendar year. This is the number of cases those agencies receive reports on (meeting the CAC's case acceptance criteria) and *not* the number that they bring to the CAC.

Information reported should be for your CAC's primary service area and those areas for which you have signed interagency agreements/MOUs for service delivery.

Year from which the statistics were generated:

What is your CAC's case acceptance criteria?

	CAC (total number served)	CPS Agency:	CPS Agency:	LE Agency:	LE Agency:	LE Agency:
Sexual Abuse						
Physical Abuse						
Neglect						
Witness to Violence						
Drug Endangered						
Other						
TOTAL
