

Remaining Chapter Application Sections

This training covers only those sections in the Chapters application not covered under the General Application Sections training, and includes the Needs Statement, Project Design & Implementation, Capabilities & Competencies, and Other Required Attachments sections.

1 Click "Needs Statement"

The screenshot shows the application form interface. At the top, there's a header with 'Applicant Information' and a 'Manage applicants (1)' link. Below this, the applicant details for 'NATIONAL CHILDRENS ALLIANCE INC.' are displayed, including their address and a contact email. The 'Needs Statement' section is highlighted with an orange circle. It contains a question about the Chapter address and a dropdown menu for selection. Below the question is a '+ Contacts' button. At the bottom right, there are 'Next' and 'Sign and submit' buttons.

2 Respond to: "Abstract".

Organization Information Technical Assistance Needs Statement Project Design & Implementation Supplemental and Completion More

ABSTRACT

Applicants must provide a project abstract, which should include the following information (400 word max):

- Purpose of the proposed project
- Project activities to be performed
- Expected outcomes, deliverables, or milestones of the proposed project
- Service Area
- Intended beneficiary(ies) of the proposed project

Abstract*

Example Proposal Abstract Template: The [insert Entity name] proposes to implement the [insert project name]. The purpose is to _____ in the [insert service area]. Project activities include _____, Expected outcomes include: _____, _____ are the intended beneficiaries of the project.

Description of Issue/Needs Statement

Applicants should briefly describe the current CAC response in their state and the need to develop/improve said response. This must include a description of current technical assistance the chapter provides to CACs in the state and the need to support/expand said assistance.*

The applicant should use data from state-wide assessments that indicate the need for training and projects, demonstrate the size and scope of the problem, and document the effects of the problem on the target population and the larger community. Applicants should describe the impact this grant project will have on developing the coordinated response to child abuse in their state and ultimately improve the provision of services among state CACs and statewide.

3 Respond to: "Applicants should briefly describe the current C.A.C. response in their state and the need to develop/improve said response. This must include a description of current technical assistance the chapter provides to C.A.Cs in the state and the need to support/expand said assistance."

4 Click "Project Design & Implementation"

The screenshot shows a web form titled "FORM QUESTIONS" with a "Download" button in the top right. Below the title, it says "Complete the required fields below. Accepting applications until Aug 8, 2025 11:59 PM". A horizontal navigation bar contains several tabs: "Organization Information", "Pre Award Checklist", "Needs Statement", "Project Design & Implementation" (which is highlighted with an orange circle), "Capabilities and Competenci...", and a "More" dropdown. The "Project Design & Implementation" tab is active, showing an "ABSTRACT" section. The abstract section includes a list of required information: Purpose of the proposed project, Project activities to be performed, Expected outcomes, deliverables, or milestones of the proposed project, Service Area, and Intended beneficiary(ies) of the proposed project. Below this list is a text input field for the abstract. Further down is a "Description of Issue/Needs Statement" section with a text input field. At the bottom, there is a confirmation statement: "Applicants should briefly describe the current CAC response in their state and the need to develop/improve said response. This must include a description of current technical..."

5 Expand Growth & Development Focus

The screenshot shows the same web form as in step 4, but now the "Needs Statement" tab is selected in the navigation bar. The "Project Design & Implementation" tab is still visible but not active. The "Needs Statement" section is active, showing a list of activities and outcomes that can be selected. The list includes "Growth & Development", "Training & Technical Assistance", and "Awareness & Education". Each item has a plus icon next to it. The "Growth & Development" item is highlighted with an orange circle. Below the list is a confirmation statement: "I confirm that the Eligible Objectives and Activities chosen above are replicated identically in the submitted Budget Timeline.*". At the bottom of the form, there are "Previous", "Next", and "Sign and submit" buttons.

6

If True is selected for Objective 6, respond to: "Describe the anticipated improvement(s) in access to medical care."

Please select only those activities and outcomes that are relevant to your application scope of work and budget. It is recommended to choose only those activities and outcomes that can be fully completed during the award period. Please keep in mind that activities and outcomes should be specific, measurable, achievable, relevant, and time-bound, and should be replicated identically in the timeline submitted.

- Growth & Development

6 - Improve access to medical care by coordinating medical preceptorships, coordinating medical service coverage, and partnering with academic programs to create a pipeline of medical professionals prepared to serve abused children.

True x ▼

Describe the anticipated improvement(s) in access to medical care.*

7 - Improve access to mental healthcare by partnering with academic programs to develop a pipeline of trained professionals, implementing tele-mental health where needed, and identifying and deploying mental health consultants, as necessary to address rural issues.

12 - Provide technical assistance to local communities interested in developing a CAC.

13 - Provide individualized consultation to CACs in their state interested in improving their services in a specific area.

15 - Implement statewide database, analyze state data collection, and consult with CACs on case management to improve case and child outcomes.

20 - Analyzes child abuse data within a state, and existing resources, to locate areas in which more MDT/CAC development or deployment of satellite services may be needed and coordinates this with existing CACs within the state.

21 - Develop new CACs in underserved areas of the state in partnership with local communities.

7

If True is selected for Objective 7, respond to: "Describe the anticipated improvement(s) in access to mental healthcare."
