

# What's a CAC, anyway?

Children's Advocacy Centers do more than investigate child abuse.  
**We help kids go back to being kids again.**

*Without a CAC...*

*...kids and families must often find mental health, medical, and other services on their own.*

*At the CAC...*

*...we bring the services kids and families need to them, all in one place.*

**Suspect abuse? Call your local CAC.**
